

TROOP 199 SUMMER 2011 MERIT BADGES

As we enter the summer season, there are going to be a number of fun & informative merit badges offered at Troop 199. With all of the outings, camps, & family vacations coming up, it will be hard to know who will be at any given meeting. It is very important that scouts & merit badge counselors keep in touch with each other so we can be sure that everyone knows what needs to be done, and that they get signed off on completed requirements.

For the new boys in the Owl Patrol, they will still be spending their meeting time with Les & Valois. They will be working on merit badges at camps & are welcome to sign up for other badges that may be offered outside of troop meetings. All other scouts should be actively involved during merit badge time, either working on badges, helping teach other scouts, or some other approved troop business. There are some boys who may still need to do a few requirements to finish off badges in progress. Please keep in touch with your counselors to see that you complete & get signed off on these.

Here are the merit badges we'll be offering this summer:

Automotive Repair	Kevin Koalenz
Golf	Kevin Koalenz
Model Building	Chris Hartman
Camping	Doug Farquhar & David Mayhew
Railroading	Ted Krumreich
Cycling	Steve Thornton & Ned Grant

All of these badges will require some fieldwork outside of troop meetings. Please contact counselors for more information.
